

# Celiac is a Chameleon

ONE DISEASE. MANY DISGUISES.

## CELIAC DOESN'T LOOK THE SAME FOR EVERYONE!

You can't always tell who has celiac disease.

Some kids feel really sick; others don't feel sick at all.

Even if you look okay, gluten can still hurt your body.

That's why it's important to take it seriously and support each other.

**NO GLUTEN = FEELING BETTER**
